### Christina Kaigg

She has completed her WSET diploma and regularly participates in benchmarking tastings such as the 'Young Gun of Wine' panel tastings and has a love of wine from all countries, regions and styles.

### Kirilly Gordon

Kirilly began her career in winemaking while doing work experience for a degree in Agricultural Science at the University of Melbourne in 1997. A fascination for the growing of grapes and the art and science of turning them into wine led to enrolling in the Charles Sturt Uni Wine Science degree and the offer of a winemaking job in the Macedon Ranges where she grew up. Many vintages later including two overseas, a finely tuned palate and love of fermentation of all kinds, she is the Winemaker at Witchmount Estate and has her own tiny wine brand called Bowerbird Wines.

I have been working in the wine industry for 9 years. As a Viticulturalist my main focus is on sustainable farming principles where no pesticides, herbicides or fertilisers are used. Irrigation is also kept to a minimum to allow the fruit to give a true sense of site. For our winemaking fining, filtration and sulphur additions are also kept to a minimum. We pick the fruit a week or so earlier to retain natural acidity and a low pH. This reduces the need for sulphur additions. We use small amounts of Hungarian and French oak to compliment the wines while allowing the fruit that we start with to shine!

### Richard Martignetti

Richard has actively participated in various vintages with premium wineries in Australia and France, honing his craft, of which his hospitality and retail experience in the world of wine has been enhanced by the completion of a WSET level 3 certificate. Enthusiastically serving as a proud contributor to the EDWG as a committee member.

### Aine Conran

I am a key account manager with Heart & Soil Wine Imports. Achieved WSET Diploma in Aug 2019. Have worked in retail, wholesale and production in the Australian and New Zealand wine industry for the last 8 years. Wine is my passion and I am constantly looking to expand my palate and knowledge.

**A solid class. No faulty wines. Conversely, a few standouts. 2017's showed well, with 2019's struggling to unfurl. Wines which overcame the varieties! Tendency to make wines which are hollow on mid-palate tended to hit a silver. Lots of bronzes were fine, but just lacked a certain something. The golds were youngest and oldest.**

This class was good, but the grapes needed more ripeness to get a bit of body in some cases. Bring down the acidity and soften the tannins. A couple of the wines were out of balance, probably due to fruit, not the wine-making. A couple of good ones. One was very good.

# WINE SHOW DIRECTORS' COMMENTS 2020 ELTHAM WINE SHOW

## The Winemaker's Wine Show

This the 51st Eltham Wine Show has been the most unusual of any wine show presented by the Eltham and Districts Winemakers Guild. With no public open day, no trophy presentations, no sponsors on site and no demonstrations it has been a show purely celebrating our dedicated winemaker entrants. The Wine Show committee are acutely aware that our entrants' primary reason to enter the show is to obtain accurate and constructive assessments of their wines. We hope that we have delivered to your expectations in this regard. Thank you for supporting the Eltham Wine Show in this most challenging of years and we encourage you to continue this support into the future.

## Our Judges

The panel of judges under the leadership of Chief Judge Sandrine Gimon is comprised of wine industry professionals with extensive experience judging the full spectrum of wine and other beverage styles. All of our judges have dedicated their valuable time on an honorary basis to support this show and encourage you in your winemaking endeavours, without them there would be no Eltham Wine Show. We wish to wholeheartedly thank Sadrine and her team for their generous contribution of time and effort which is really appreciated.

## Meet Our Members

We encourage anyone interested in winemaking to consider coming along to one of our regular guild meetings held on the last Friday of each month. At these meetings members discuss all aspects of wine and winemaking with the common objective of either problem solving or improving winemaking skills. Exchange of ideas between members also occurs either on-line or face to face. Please visit our website <https://amateurwine.org.au> or email [info@amateurwine.org.au](mailto:info@amateurwine.org.au) for details on how to access our meetings which are being held via Zoom.

## Support Our Sponsors

We gratefully acknowledge the generous support of our many sponsors without whom this Show would not be possible. Please give your support to our sponsors whenever possible.

## Wine Show Review Session

Because there will be no Open Day this year, the presentations which are usually made during the Wine Show will now be made on Friday 27 November at 8pm online via Zoom. Our Chief Judge will give her impressions of the standard of wines entered in this year's Show. The announcement will also be made of the winner of the Joe Illian Trophy for the best previous vintage chardonnay. This will be the only trophy presented this year. At the end of the presentations there will be a limited opportunity for people to ask either the Chief Judge or the Wine Show Directors questions about the Wine Show. All wine show entrants will receive an invitation via email to the session being held on 27 November. If you do not receive an invitation to the Zoom session or have any questions about this session please email [info@amateurwine.org.au](mailto:info@amateurwine.org.au)

## Acknowledgments

Our sincere gratitude goes to the very dedicated EDWG Committee who contribute so much of their time and effort to the successful staging of this Show. Of course, the committee is competently supported by many guild members who volunteer considerable time to make the show a success.
