Fellowship through home winemaking: Share, Learn, Enjoy!

Make your Own Wine. Go for a Gold Medal.

- Have you recently started making wine at home but would like to learn more?
- Have you been making your own wine for a while but would like to meet up with other winemakers to share experiences?
- Would you like to start making your own Grape or Country wine at home?

If you answered yes to either of these questions, then the Eltham & District Winemakers Guild could be just what you are looking for! The Eltham & District Winemakers Guild can introduce you to:

- A welcoming group of winemakers with all levels of experience, some with a long tradition of artisan Grape and Country winemaking.
- Great learning, sharing and mentoring experiences to improve your winemaking skills. The Guild regularly runs winemaking classes.
- Fun and optional educational monthly meetings covering Grape and Country winemaking where your wine and the wine of others are appraised and constructive feedback provided.
- Social events including educational visits to wineries where we meet and chat with commercial winemakers.

When you join the Guild, you will be allocated a 'buddy' who is an experienced winemaker and is available to mentor you and provide advice whenever you need it. Also, you will have access to the guild forum, exclusive to members, where you can ask questions or pick up winemaking hints from the exchanges between members.

Until COVID, monthly meetings were held at the Eltham Living and Learning Centre starting at 7:45 PM with visitors welcome at any time. Recently we have been holding our meetings via Zoom. These have proven successful. that we will continue to use Zoom to broadcast our meetings once face to face meetings resume so that members not able to attend can participate and learn from our guest speakers.

If you are considering joining the Guild please do not hesitate to either visit our website (www.amateurwine.org.au) for more information or contact our Secretary Mario Anders via email (cheers@amateurwine.org.au)

OUR JUDGES - 2022 ELTHAM WINE SHOW

Introducing our Chief Judge Lisa Cardelli

Lisa has over a decade of experience in the wine industry, between Italy and Australia.

Lisa has been a sommelier for many years in the city best fine dining restaurants. Until she decided that a 9 to 5 job suited her better. She is now busy selling wines for Terroir Selections and teaching WSET (she holds the WSET Diploma). She is also involved in the wine show circuit both as an associate and judge. And a committee member of Sommelier Australia. Busy bee!

A wannabe writer, Lisa has recently pitched her first wine article to an editor. And the luck was on her side.

Frank Butera

Frank Butera is the General Manager and Wine Maker at Bass River in Gippsland, Victoria, with a focus on cool climate varietals.

He gained his BSc in Applied Physics at RMIT University, then continued his studies to complete Wine Science at Charles Stuart University.

Frank completed the AWRI Advance Wine Assessment Course (AWAC #48) and the Len Evans Tutorial in 2022.

He has previously judged the National and Regional Wine Shows and is currently the Chief Steward and the Gippsland Wine Show.

Luca Barbon

Assistant winemaker at Sidewood, Luca has over seven years in the wine industry and has extensive knowledge of the winemaking process from harvest to production.

Grant Scicluna

Grant Scicluna of Wine House Melbourne Grant Scicluna is Assistant Manager at Wine House Melbourne, where he has worked across many facets of the business for ten years, including looking after all communications.

Grant was selected as the Wine Scholar for the 2019 Australian Alternative Varieties Wine Show and represented Wine House in numerous international trade contexts including the Jackson Family Wine Symposium in California; Sauvignon 2019 and the Chardonnay and Sparkling Symposium in New Zealand as well as in Wine Show judging.

Grant helps coordinate and teach regular events at Wine House, including teaching WSET Levels 1 and 2 and the Wine Scholar Guild's Italian Wine Scholar Prep.

Wayne Hewett

Wayne is a professional winemaker for Rebello Wines, a winery on the Mornington Peninsula associated with Sunny Ridge Strawberry Farm. He has judged at the Hobat (Australian) Fruit Wine Show, Cairns Fruit Wine Show as well as the Victorian Wines show.

Jenny Polack

Jenny is a highly qualified wine expert and educator with a WSET Diploma and Diploma in Wine Marketing. She enjoys taking people on exciting journeys exploring the world of wine. She creates interesting, easily accessible and relaxed learning experiences enabling everyone at any level to learn about wine. She also installs confidence in the participants' own wine tasting abilities. Winner of the WCA Best Wine Educator 2016

Finalist of the WCA Best Wine Educator 2019 and 2015 Wine and Spirit Consultant of the Year – Victoria 2018 and 2017 (Apac Insider)

Sierra Reed

"I have forged my life path with the feeling that if I surrendered myself wholly to the cause, it would consume me and I would become it. That's really how I got into wine, I didn't just want to make it, I wanted to be changed by the process forever. Wine allows me to express my core self, it's the medium I use to live my truth and I love every minute of it. I feel that if all of us had this sense of connection it would help our mental health and the way we approach our lives and others in the world."

Always an inquisitive and enthusiastic drinker, Sierra's journey in wine began in New Zealand whilst filming with the Family of Twelve. Interviewing those leading families of New Zealand wine inspired her to change her life and begin the journey from drinker to maker. Sierra made her first wines in February 2015.

Richard Martignetti

Richard has actively participated in various vintages with premium wineries in Australia and France, honing his craft, of which his hospitality and retail experience in the world of wine has been enhanced by the completion of a WSET level 3 certificate. Enthusiastically serving as a proud contributor to the EDWG as a committee member.

Chris Myers

Chris has been a country winemaker for 42 years and a Life Member of the Frankston Amateur Winemakers Guild. Chris has won many trophies and awards for country wines throughout Australia and judges the Frankston Show and the Red Hill Show each year.

Another Wine Show delivered with your support – Wine Director's Comments

We are the biggest Artisan Wine Show in Australia. And once again, thanks to your support, we have managed to deliver the 53rd Eltham Wine Show.

We are pleased to be having our usual open day where both winemakers and members of the public has the opportunity to taste any of the wines entered.

Our aim is to provide winemakers with accurate and constructive assessments of their wines, which is the primary reason they have entered our show.

Judging Your Wines

Our Chief Judge is Lisa Cardelli. Lisa and the panel of judges comprises of wine industry professionals with extensive experience, judging the full spectrum of wine and other beverage styles. The primary reason people enter the show is to receive accurate and constructive feedback on their wines. The panel has not only scored our wines, which is the usual practice at a wine show, but they have gone out of their way to provide constructive feedback. We really appreciate the extra effort they go to in order to help and support us, which is all done on an honorary basis.

Improve Your Winemaking - Meet Our Members

Like everything else in life, winemaking can be a lifelong journey where there is always room for improvement. If you are interested in winemaking and want to make the best wine you can, why not consider joining the Guild? The Guild has monthly meetings, runs courses, publishes a newsletter and members chat on social media. As a member you can get involved to the degree you want or are available, we even have members who reside in other states. Whatever your involvement, one thing is for sure, your winemaking will steadily improve and you will derive a lot of satisfaction from that. Please visit our website https://amateurwine.org.au or email our secretary Mario Anders, email: info@amateurwine.org.au for more information about membership.

Fellowship through home winemaking: Share, Learn, Enjoy!

Thank You

We thank Lisa Cardelli and her panel of judges for their time and contribution to the show.

We gratefully acknowledge the generous support of our many sponsors without whom this Show would not be possible. Please give your support to our sponsors whenever possible.

Our sincere gratitude goes to the very dedicated EDWG Wine Show Committee who contribute so much of their time and effort to the successful staging of this Show. Of course, the committee is competently supported by many guild members who volunteer considerable time to make the show a success.

And finally, thank you to all wine show entrants for your continuing support, hopefully we have met your expectations, if not let us know how we can improve.

grapeworks

Class	Class comment
	Shiraz Current
	Hard class as expected. Different styles with interesting expression of fruit and oak management. Bright and clean aromas through the whole class with some off
Class 1	flavours due to fermentation issue. Overall, this class shows smooth and well-balanced 22 Shiraz.
	Shiraz Previous
	A hallmark variety for Australia that seems to always be a conversational piece. Elegance and power can still be achieved when picking earlier to retain freshness
	and pulling back from oak. There were an array of styles in this bracket from faulty to promising, which was to be expected. Remember that Shiraz is a grape that
Class 2	doesn'''t need much to be too much, so less is more. Like Coco Chanel once said, "take one thing off before you leave the house." Balance is everything!
	Cab Sauvignon or Cab Franc Current
	Overall clean wines with good fruit quality. Apart from the gold medal wine, all wines are drinking now styles. A couple of wines showed cooked fruit which could
Class 3	be remedied by picking time and/or fermentation issues.
	Cab Sauvignon or Cab Franc Previous
Class 4	A range of styles from warmer to cooler climate fruit. Some aged characters accepted. Very few faulty wines
	Merlot Current
Class 5	Merlot is a difficult grape variety in Australia. This bracket reflect this. Consider picking time. Some blending with Cabernet might help in lesser vintages.
	Merlot Previous
Class 6	A very mixed bag with one that shown through. Merlot is still a grape variety lacking definition as a single varietal.
	Pinot Noir Previous
	two wines showing pinot characteristics, some wines showing cellar faults - which need attention during wine making and storage. Many wine finished sweet and
	have been marked down. Ferments are to be completed to dryness, this must be investigated. Stem and oak use must be in balance with the wine. Mistakes in
Class 8	Pinot Noir are often costly.

	have been marked down. Ferments are to be completed to dryness, this must be investigated. Stem and oak use must be in balance with the wine. Mistakes in
Class 8	Pinot Noir are often costly.
	All Blended Reds Current
	A disappointing bracket due to some stuck ferments and simple fruit. Some of wines could be improved with some more careful winemaking. Others need a better
Class 9	higher quality of fruit.
	All Blended Reds Previous
Class 10	Really interesting blends with few ages on them showcasing great integration and balance. Few solid results.
	Less Common Varieties Previous

A very interesting bracket of wines. Great to see new varieties cropping up and overall the quality was high. There was more Sagrantino than any other variety and it was great to see it treated in varying ways - from traditional to more modern, fresh takes. Sangioveses were strong on the whole. There were clear stand outs in all varieties, the best were classic and offered drinkability as well as unique character. Some wines in the lineup just a little too old, while others really at their Class 11 peak, and even some a little too young to show their best.

	Less Common Varieties Current
Class 12	Great to see alternative grapes being made and showed. Some examples of over oak use. Balanced wine we awarded.
	Rose Any Variety
	In this bracket, there was some real drinkability, a couple of wines that shone through and many that need to head back to the drawing board and reassess why
	they decided to make rose. Rose is can be a quaffable, carefree, summery wine, however something to take from this commentary might be that it is also an
Class 13	expression of joy.
	Riesling Traminer Pinto Gris
	Overall there were a couple wines that really surprised us and showed some great potential. There were a few identity issues with the variety not matching what
	was in the glass making it hard to judge them appropriately. There were quite a few faults which made it a bit hard to assess the wines with pleasure, but nothing a
Class 20	few tweaks next vintage couldn'''t fix.
	Chardonnay Current
Class 21	disappointing class for Chardonnay 2022. Only two entries, one wine tasted.
	Chardonnay Previous
	One top wine - medaled wines shows fruit complexity,, oak integration, length and harmony. Many wines, need to watch their harvest dates, some wines
Class 22	advanced, lacking aromatics. Overall it was an insightful class to judge.
	All Blended Whites
Class 24	one wine - difficult to compare - this bracket needs show balance through blending
	All Blended Whites
Class 24	one wine - difficult to compare - this bracket needs show balance through blending
	Sweet Grape Wine Still
Class 30	Small class with one example of zesty and fresh Moscato.
	Sparkling Grape Wine

It's always a challenge to judge brackets consisting of a diversity of approaches and varieties, however, standouts in this lineup showcased finesse, careful handling of fruit and an informed approach to style. Traditional Champagne varieties tend to perform better in these categories, often due to the history informing the approach. A single gold medal was awarded for Chardonnay made reminiscent of a traditional method approach with seamless fruit, acid and savoury elements. Our second in the bracket was more of a dark horse, a blend of Shiraz and Cabernet where dark fruit weight balanced with significant sugar and refreshing acidity, Class 31 while avoiding broody, bitter characters. Overall, a diverse range of wines where integration and balance were key deciders in medal classifications.

Fortified Grape Wine

Class 32 Short bracket covering off ruby-style, muscat and fortified varieties. The best brought balance and a depth of flavour.

Berry Wine

Class 40 On the whole, a good class - as shown by the number of medals. As a country wine maker, it's important to understand the fruit you are using. Eat and analyse

Class 41 Overall, this class had a lack of fruit on the nose, and more attention was needed on acid levels.

Herb, Grain, Flower or Veg

Stone Fruit Wine

Class 42 An excellent class, with outstanding variations. Mostly well-crafted wines.

Other Country Fruit Wine
Class 43 A diverse class, with some very interesting combinations. Some wines should be clarified more carefully.
Fortified Country Wine
Class 44 Good class.
Sparkling Country Wine
Class 45 A disappointing class, with most wines lacking the characteristics of the fruit used.
Liqueur
Class 50 A class full of medals. The problem of balancing strength of ingredients against finesse is the issue here. A couple of standouts.
Mead Metheglyn
Class 60 A strong class, well made wines. Good to see restraint in herbs.
Mead Joes Ancient Orange
Class 61 JAOs have come a long way !!!. Elegant and well made
Mead Melomel
Class 62 A disappointing class showing a lack of ingredient definition
Traditional Mead
Class 64 Traditional meads showed just how difficult this style is !! Bochets were excellent
Cider Dry Sparkling
Class 71 Traditional apples always will win out in a small comp like this. See them out !!

Professional Grape Wine Red or White

Class 90 Great potential in this class with wines that show varietal character. Well-handled grapes. Diversity in style. Interesting class to judge.

COMMON WINEMAKING FAULTS AND THEIR CAUSES

Incomplete Primary Fermentation

An enzymatic test for glucose and fructose is the only way to be completely sure that primary fermentation is complete. Incomplete primary fermentation is often noticed as cloudiness in wine, potentially with loss of colour, stale or oxidised characters can be apparent as well as the presence of CO2 in the wine. When oxidation is more advanced, acetaldehyde may be evident. These problems often manifest themselves shortly after the wine is racked, presumably because the aeration caused by racking stimulates yeast activity.

Insufficient SO₂

Insufficient SO₂ manifests itself as either microbiological instability or oxidation of the wine. When adding SO₂ it is important to understand that the effectiveness of any addition will be determined by the pH of the wine. In addition, it is the 'free' rather than the 'bound' SO₂ that infers anti-microbial and anti-oxidative protection, and only part of any addition will yield free SO₂. The level of free SO₂ in the wine will fall significantly during racking and gradually over time in storage and in the bottle due to oxidation.

High pH

The pH of picked grapes can vary considerably. It is important that the winemaker makes adjustment as soon as possible to ensure the pH of the must and wine remains within the target levels recommended below. Note that with higher pH, SO₂ becomes less effective, and the growth of potential spoilage microorganisms is favoured.

Red Wine: Must (pH3.30-3.45), Finished Wine (pH3.55-3.60)

White Wine: Juice (pH3.15-3.30), Finished Wine (pH3.30-3.45)

Incomplete Malolactic Fermentation

As with incomplete primary fermentation, completion of malolactic fermentation should always be confirmed with an enzymatic test. The consequences of the growth of bacteria in wine are similar to those caused by yeast growth, described above for incomplete primary fermentation.

Inadequate Clarification

Many wines are now bottled without filtration because of the perceived negative effect on wine quality. Some of these wines may form a haze which may be due to suspended yeast or bacteria, both of which are capable of forming hazes that do not readily settle or form a deposit in the bottle. If a slight negative effect on wine quality does occur due to filtration, it is greatly outweighed by the possible negative effect of wine spoilage that may occur if the wine is not filtered.

Wine Additives

Wine instability and problems can be caused by wine additives. Use products that are specifically recommended for use in wine, perform bench trials on a sample of the wine and check and re-check calculations before any additions are made.

COMMON WINE FAULT TERMS

"V.A. (Volatile Acidity or Volatility)": The smell of vinegar (Acetic Acid and /or nail polish remover (ethyl acetate). Can arise from poor storage practices that exposed wine to air.

"Aldehyde": Similar smell to Fino Sherry and is the result of either oxidation or microbial spoilage and if left untreated will normally result in V.A.

"Oxidised": When wine is exposed to the air the fruit aromas and flavour become muted, not as apparent; the wine might also be described as tasting "flat" or "flabby ". The wine might also have a brownish colour and show similar characters to "Volatile" and/or "Oxidised" wines.

"H₂S (Hydrogen Sulphide)": The smell of rotten eggs produced by yeast during fermentation generally caused by a lack of nitrogen in the ferment or excessive use of sulphur in the treatment of the grapes prior to ferment (e.g. sulphur based sprays in the vineyard). Use sufficient nutrient at the correct times during primary fermentation. If not treated properly (with Copper Sulphate) H₂S can lead to the more serious problem of Mercaptans (rotten vegetable aromas).

"Bret character" (Brettanomyces): An unpleasant "barnyard" smell (may also be described as a "horsey" smell). Generally, the result of storing wines in contaminated barrels. Clean and sanitise storage vessels carefully.

"Corked": Refers to a mouldy, musty, wet newspaper, dank characters. Results from the mould in corks in conjunction with chlorine forming a compound called Trichloroanisole (TCA), which remains in the cork and taints the wine. Avoid using chlorinated water and chlorine based cleaners. A wine sealed with a screw cap cannot be tainted with TCA, by the selected closure itself.

"Green": Young wines, which are unbalanced because of excess acid (generally Malic Acid), made from grapes which have not fully ripened. Only use high quality, properly ripened grapes. If you can, ask the grower to advise sugar and acidity levels of the fruit before you commit to using it for your vintage.

"Astringency": Gives an unpleasant puckering, drying, tactile sensation in the mouth due to high tannin content absorbed from skins and seeds. May be caused by excessive contact with skins and/or seeds during primary ferment. Rough tannins may be due to the use of poor quality oak. Manage skin contact appropriately and use only high quality oak.

"Unbalanced": A balanced wine has alcoholic strength, acidity, residual sugar, tannins and fruit characters which complement each other so that no single one of them is obtrusive on the palate.
